## TO THE PUBLIC.

**I**N ORGANIZING and remodeling the CAMPBELL BROTHERS GREAT CONSOLIDATED SHOWS for this season, our motto has been "To Excel" not only in presenting to the American people an exhibition at once morally pure and instructive, but in grandeur and completeness of its extensive arenic, and special features. For this purpose our agents have been tireless in their efforts, traveling thousands of miles in pursuit of new and never before presented features. How grandly and completely we have succeeded is fully evidenced in the fact that we have brought together what we consider the grandest amusement institution of modern times. Throughout everything is gorgeous and the best obtainable, comfort as well as splendor being studied. Accommodation and facilities alike colossal and unexampled. Ushers aid in seating the throngs and the aged and infirm are especially provided for. Our Canvas is thoroughly waterproof and every convenience to our patrons studied. The best show invites the best people and the great CAMPBELL BROS. SHOWS are conducted with a steadfast view to strict decorum. Politeness and invariably considerate attention to our Patrons are imperatively required of every individual of our army of employees. Courtesy is a Red Letter Rule in all the varied performances and expositions and in the arrangement for their presentation nothing will be premitted that will offend propriety, displease the most scrupulous, or disturb the estimate of the sensitive as to correct morals and manners.

**Honorably Conducted, Pure, Moral and Instructive.**

ALL NATURE'S STRANGEST, MOST WONDERFUL AND MOST CURIOUS FORMS OF ANIMAL LIFE.

The Menagerie presented for inspection and study this year by us is the greatest zoological collection ever brought together. As an important departure in this big show, it offers not only features of interest and wonder, but recommends itself pre-eminently as a superior source of study and information. In point of size, as well as in rare and exclusive features, it is beyond comparison with any other animal collection. It possesses so many specimens of rare animal life, not to be seen in any other collection, that it is the most distinctive menagerie in the world. Naturalists, scientists and students will find many specimens of almost extinct tribes of animals—all that is rare and interesting in zoology is here exhibited. Some idea of the immensity and completeness of this really Grand Menagerie may be formed from the statement that no other menagerie contains so many cages.
